

This application is to be completed by companies seeking business opportunities with Alyeska Pipeline Service Company (Alyeska). **Please note that by completing and submitting this application per the instructions below, this process does not guarantee your company any work and does not guarantee your company an invitation to bid.** This process is intended to provide Alyeska a list of potential bidders. Supply Chain Management will contact companies on an “as needed basis” for additional information and/or seeking interest in bidding on upcoming potential work.

- 1) Go to website: <http://alyeska-pipe.com>
- 2) Click Connect tab
- 3) Click Potential Bidder Application
- 4) If minority owned, attach to application, proof of ownership (i.e. certification)
- 5) Fill out and submit to WMBEProgramManager@alyeska-pipeline.com

About Alyeska Pipeline Service Company: Alyeska was established in 1970 to design, construct, operate, and maintain the Trans-Alaska Pipeline System (TAPS). Headquartered in Anchorage, the company maintains operations in Fairbanks, Valdez and remote locations along the pipeline.

Currently TAPS is owned by four companies including, BP Pipelines (Alaska) Inc., ConocoPhillips Transportation Alaska, Inc., ExxonMobil Pipeline Company, and Unocal Pipeline Company.

TAPS crosses over 376 miles of federal-owned land, 344 miles of state-owned land, and 80 miles of private property (800 miles in total). Fifty-one miles of the privately owned land is owned by Alaska Native corporations. Prior to beginning pipeline construction in 1974, the TAPS owners signed a State Right-of Way Lease and a Federal Agreement and Grant of Right-of-Way which contain terms applicable to pipeline construction, operation, and maintenance. These agreements (currently valid until 2034) have defined many of the state and federal requirements for TAPS operations since oil started flowing in 1977.

Alyeska has a Women and Minority Business Enterprise (WMBE) Program which is enforced to ensure compliance with applicable requirements of *CFR Title 43 – Public Lands: Interior, Part 27 – Nondiscrimination in Activities Conducted Under Permits, Right-of-Way, Public Land Orders, and Other Federal Authorization Granted or Issued Under Title II of Public Law 93-153, et seq.* by increasing opportunities for qualified women and minority-owned companies to market their products or services to Alyeska and Alyeska Contractors. Alyeska prohibits discrimination against any person or business pursuing these opportunities on the grounds of race, creed, color, national origin, or sex. Alyeska manages its contracting and purchasing programs to prevent and resolve any claims of discrimination and is committed to expanding the WMBE participation in its direct contracts and subcontracts when possible.
